Good morning Veronica!

I just wanted to let you know we received your maintenance request and have a tech en route to check it out. There was a mainline stoppage yesterday that we cleared, I think it may be related, but he will get it resolved either way!

Thank you and happy Friday!

Hi Gloria,

I just checked the downstairs laundry room, and there is still water all over the floor. Would someone be able to come out and clean this up?

Thanks,
Veronica
